## Relevant Experience

### Frontend Developer, GPRS Innovation

*April 2022 - September 2022*

Helped deliver high-quality, productive code for diverse projects for clients. Also taught over 10 students the basics of frontend web development, helping them to understand HTML, CSS & JavaScript.

### Graphics Designer, Fix Impressions

*February 2023 - November 2023*

Participated in designing unique magazines, invitation cards, flyers, and many more. Learned to use design tools like Corel Draw, Photoshop, and Adobe Illustrator. I was also given the privilege to teach 2 new employees some of the tools used.

## Education

### Naval Officers Wife Association (NOWA) Primary School, Apapa Lago - Primary School Leaving Certificate

*September 2009 - June 2013*

Obtained foundational education in various subjects including Mathematics, English Language, Science, and Social Studies.

### Junior Secondary School Pegi - Basic Education Certificate

*September 2016 - June 2018*

Completed Basic Education Certificate at Junior Secondary School Pegi, demonstrating foundational academic achievement and commitment to learning.

## Skills

### Languages

JavaScript, Typescript, CSS3, HTML5

### Libraries & Frameworks

React, Express.js, Tailwindcss, Bootstrap.

### JavaScript Runtime

NodeJS

### Tools & Platforms

Git, GitHub, Firebase, VsCode.

## Interests

Soccer, Science fiction, Basketball, Web accessibility

## **Government Secondary School Kuje - Senior Secondary School Certificate (SSCE)**

*September 2018 - June 2020*

Completed Senior School Certificate Examination (SSCE) at Government Senior Secondary School Kuje, demonstrating a solid foundation in academic studies and a commitment to educational achievement.

## **National Open University Of Nigeria - B.S.C Economics Undergraduate**

*September 2023 - Present*

My academic journey in Economics equips me with a robust understanding of market dynamics, consumer behavior, and economic principles, which are foundational elements crucial for excelling in the field of digital marketing. Through coursework, I've developed analytical skills to interpret data trends, forecast market changes, and devise effective strategies to reach target audiences.

## **National Institute Of Information Technology - Full-stack web development course**

*February 2023 - February 2024*

Completed Full-Stack Web Development Course National Institute of Information Technology (NIIT) Successfully acquired comprehensive skills in full-stack web development through rigorous coursework at NIIT. Proficient in both front-end and back-end technologies, including HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Applied knowledge in developing dynamic and responsive web applications, emphasizing usability and performance optimization.

## **Selected Projects**

### **Logistica**

Logistica is a front-end template project designed to showcase the benefits of optimized logistics in reducing transportation, storage, and inventory costs, ultimately driving higher profitability for businesses.

### **IP Address Tracker**

Track and visualize the geographic location of any IP address with ease using our React-based IP Address Tracker. Discover the precise location, ISP, and timezone while exploring a user-friendly interface designed for seamless navigation and information retrieval.
